

# All That Really Matters

[Richie Sambora](#)

When I look at you  
You're beautiful  
There comes a time in someone's life  
When you find the things that matter  
And every time we touch  
The love runs deep  
We realize it's ours to keep  
And that's all that really matters You'll always be my sweet addiction  
In this life my saving grace  
You're all that really matters  
You know it's true  
Ain't no me without you When you're in the dark  
Baby don't despair  
I'm just a spark away  
I will be there  
And that's all that really matters You'll always be my sweet addiction  
In this life my saving grace  
You're all that really matters  
You know it's true  
Ain't no me without you We'll share our lives together  
Yes our flame burns on forever  
And at the final curtain call  
We can say we did it all You'll always be my sweet addiction  
In this life my saving grace  
You're all that really matters  
You know it's true  
Ain't no me without you And when we turn to dust  
And we fly away  
There'll be a light still burning bright  
And that's all that really matters
