

# Molly Makeout

## The Friday Night Boys

Let me tell you about this girl I know  
Molly Makeout  
Up and down, it's rising action  
Molly Makeout satisfaction Easy to please, get on your knees  
You're wasting time Molly, Molly Makeout, any time, any guy  
Just watch your back, you won't know what to do  
Molly might make out with you She was lost but now she's found  
I'll tell you what she's thinking now  
She thinks she's got all the power south on 95 two hours  
Maybe she's not worth the drive but Molly makes me come alive So easy to please, get on your knees  
You're wasting time, yeah you're begging for this  
But you're not, oh you're not getting much further tonight  
This is why they call her Molly, Molly Makeout, any time, any guy  
Just watch your back, you won't know what to do  
Molly might make out with you Molly, Molly Makeout, any time, any guy  
Just watch your back, you won't know what to do  
Molly might make out with you Molly Makeout, you lie too much  
Said your lips no boy could touch  
If making outs just what you do  
Then Molly Makeout's the girl for you Every night you take off that dress  
Where you've been is anyone's guess  
The truth is that I just don't care  
As my hands run through your hair Molly, Molly Makeout, any time, any guy  
Just watch your back, you won't know what to do  
Molly might make out with you Molly, Molly Makeout, any time, any guy  
Just watch your back, you won't know what to do  
Molly might make out with you Every night you take off that dress  
Where you've been is anyone's guess  
Making out is just what you do  
Molly might make out with you
