

# Just A Song

Christy Carlson Romano

So when my voice breaks  
It's called interpretation  
When i hold a note  
It's cause i want to  
Not cause i feel anything about you  
So don't flatter yourself thinking that i love you  
Make you emotional  
From major to the minor  
When I lose control  
I'm not trying to impress you  
Break it down and i get your attention  
But it's just formula I don't need your validation  
Validation  
This is just a song  
The music plays on then its gone again  
This is just a song  
The words don't mean a thing  
So every time i sang i loved you all along  
Remember, Remember this is just a song  
Now i feel nothing  
Yeah i'm on auto pilot  
I have sung these words  
Even sung 'em while i'm sleeping  
Just cause you have showed up here to see me

Doesn't mean i'm going home with you this evening  
I know December is the month we met  
But it rhymes with remember  
Or did you forget  
i was only giving a performance  
I haven't noticed you were in the audience  
In the audience  
This is just a song  
The music plays on then it's gone again  
This is just a song  
The words don't mean a thing  
So every time i sang i loved you all along  
Remember, Remember this is just  
Everybody knows that this is just a song

And i don't feel a thing for you  
Everybody knows that rhythm, rime, and structure  
Doesn't mean that i love you  
Oh no  
This is just a song  
The music plays on then it's gone again  
This is just a song  
The words don't mean a thing  
So every time i sang i loved you all along  
Remember, Remember this is just a song
