How to Do It

Dezign

Let's show the people how to do it

Hey everybody get on up feel alright tonight
Hey everybody take a chance cause the time is right

Oh, I never had a feeling to make me feel so good
Cause when I am with you girl you know it's also true
Oh, you make my heart jump just like the music beat
Put two of us together is a very special treat

Let's show the people how to do it
We lose ourselves in the magic now
Let's show the people how to do it
We move along be singing loud

Hey everybody get on up feel alright tonight
Hey everybody take a chance cause the time is right

This time after you turn me
Lets go round again
My heartbeat's in a fever
Dancing like a man.
Oh we got the good times
We will never let them go
We can be forever
If you let me go

Let's show the people how to do it
We lose ourselves in the magic now
Let's show the people how to do it.
We move along be singing loud

Let's show the people how to do it
We lose ourselves in the magic now
Let's show the people how to do it.
We move along be singing loud

Hey everybody get on up feel alright tonight

Hey everybody take a change cause the time is right

Let's show the people how to do it
We lose ourselves in the magic now
Let's show the people how to do it.
We move along be singing loud

Let's show the people how to do it
We lose ourselves in the magic now
Let's show the people how to do it.
We move along be singing loud

Let's show the people how to do it
We lose ourselves in the magic now
Let's show the people how to do it.
We move along be singing loud
