I Need A Man

Crystal Shawanda

I know I drive you crazy sometimes
I know I throw out words like they were knives
Real sharp knivesI know just how to push your buttons
Sometime I push them all at the same time
Just to mess with your mindI need a man who will stand up to me when I wanna fight
I need a man who will hold on to me when I wanna cry
I need a manSomeone who just can't wait
To take me home and love me good and strong
All night longI need a man who wants to be more than just my friend
I need a man who aches for me again and again
And again and again and again
I need a manI have misgiving and misconceptions
'Til you love me just for who I am
Now I understandI need a man
I need a man
I need a man who stands up to me when I wanna fight
I need a man who holds on to me when I wanna cryI need a man
I need a man
I need a man
I need a man
