

Save It for Me

Stevie McCrorie

Black shorts on a friday night
on a shinning light
And upon a
You're the pillow behind my head
I can hear some
Midnight and
No way I'll be standing still
So, hold my hand and dance with me
Say that you want me
Stay to the morning,
And I can feel it, I can feel it
your love, your love...
Save it for me.
Fireworks are across the sky
Try to
Tired eyes
Will stumble around the streets
Who cares if the rains comes down
Come here
No way I'll be standing still
So, hold my hand and come with me
Say that you want me
Stay to the morning,
And I can feel it, I can feel it
your love, your love...
Save it for me.
I don't know the time
But I'm still feeling fine,
Say that you want me
Stay to the morning,
And I can feel it, I can feel it
your love, your love...
Save it for me.
(Save it for me)
Save it for me, save it for me.
