Total Death

Kreator

Time has come, the peace can't stand
Masters of the switch now rule the earth
Push their switch and send the death
Politicians warpigs got only shit in their heads
Try to run or hide from the death
You will burn and bleed from your headTotal Death, Total Death
Total Death, Total DeathNo one can escape the burning flames
The flesh and skin decay from your face
Hundred megatons lie on every soul
Destroy the human race is their goal
Destroy the weapons on this earth
Or it's gonna be the end of the world
If they send one order death becomes alive
And the're ain't no God
Who helps us when we dies
