Surface (2009)

Five Times August

You could be the big mistake I make
But thats the chance Im willing to take
I need to know
Cause, Lord, Im so aloneAfraid to fall, but all in all
The lessons learned have made me tall
And now Im getting close
To what I want the mostAnd I do
Im taking each breath to make each step to you
Im holding on tight to keep things mine
And ooh, Baby I need to find truth
So lets move and get to know the girl I never knewFour years searching, not a scratch on the surface
Giving my time but love is just a circus
And Im caught in the ring
Just looking at everything
Cause youre somewhere here
Youre somewhere there
Youre playing these tricks and its not fair
But Im gonna get you soon
Theres only so much roomAnd I do
Im taking each breath to make each step to you
Im holding on tight to keep things mine
And ooh, Baby I need to find truth
So lets move and get to know the girl I never knewMaybe I need to lose
Everything that Im used to
Maybe I need to lose
Everything that I used from you
Maybe I need to lose
Everything that Im used to
Maybe I need to lose
Everything that I used from youAnd I do
Im taking each breath to make each step to you
Im holding on tight to keep things mine
And ooh, Baby I need to find truth
So lets move and get to know the girl I never knewYou could be the big mistake I make
But thats the chance Im willing to take
I need to know
Cause, Lord, Im so alone
