

This Kind of Feeling

Sunflower Bean

This kinda feeling one that's hard to shake
From this the smoke rises high as the moon

This is the curse that i forsake

This kinda feeling one that's hard to deal with
The gaping mouth with a tongue of two snakes

This is the curse that i forsake

I see that face, that i forsake Have a feeling all over this world

Have a feeling all over this world

Have a feeling all over this world
