

Lions in the Wild

Martin Garrix

[Verse 1]

Looking out for a new horizon
Reaching out, I can almost see the place
Holding on with a heart that's frozen
In the dark, but I am not afraid
No, I am not afraid[Chorus]
We'll be free, but I don't know where we're going
You and me, this is our life and we own it
Like lions in the wild
Like lions in the wild

Like lions in the wild[Verse 2]

Looking out at the open skyline
Reaching out, I can almost touch the place
Where the lost ones find their freedom
In the dark, but I am not afraid
No, I am not afraid[Chorus]
We'll be free, but I don't know where we're going
You and me, this is our life and we own it
Like lions in the wild
Like lions in the wild
Like lions in the wild
