Standing On My Own

Agnostic Front

Since the day I turned 15 I've been
Standing on my own
Never tried no suicide standing on my own
Everyday, I'm moving forward evenThough it seems a little bit awkward
Lost myself a thousand times I found
My way home, I found my way home
Standing on my own with no help from youSince I lost my innocence I've been
Standing on my own
No time to reminisce standing on my own
Everyday, I seem to mess up evenThough I think it's real bad luck
Lost myself a thousand times
I found my way home
Standing on my own with no help from youSince the day I turned 15 I've been
Standing on my own
Never tried no suicide standing on my own
I learned to live, I learned to live, I'veBeen standing on my own
I learned to fight, I'll learn to die
Standing on my own
Standing on my own with no help from you
