Son Of Cha!

Local H

If you want it, then it's great
If you don't, you'll have to wait
Doctor help me medicate
Doctor give it to me straight
If you got the stink of luck
Find a movie star to fuck
Come on like a semi truck
I said "All night"
Thinking what you coulda been
Thinking what you shoulda been
Left without a decent friend
Not now, not then
Sell my life in stock and trade
Making like you got it made
If you want another
You know me, I got nowhere to be
Bailing through my barricade
Living and in love with me
But if you want another
You know me, I got nowhere to be
Don't wanna break down
Yeah
Yeah
Yeah
Passin' up your salad days
Creepin' up on middle age
Chasin' down the latest craze
Oh yeah, all right

If you want it, then it's great
If you don't, you'll have to wait
Doctor help me medicate
Doctor give it to me straight
Living and in love with me
Bailing through a barricade
But if you want another
You know me, I got nowhere to be
Sell my life in stock and trade
Making like you got it made

But if you want another
You know me, I got nowhere to be
Don't wanna break down
Sell my life in stock and trade
Making like you got it made
So if you want another
You know me, I got nowhere to be
Sailing down my barricade
Living and in love with me
But if you want another
You know me, I got nowhere to be
Don't wanna break down
Yeah
Yeah
Yeah
Yeah
