Warning Sirens

Jerry Leger

Warning sirens when this town goes bad
And that'll be me walking down that dirty old path
I know you never knew but there's room for you
It don't have to be so sad
Just call on me when it all starts pouring 'roundWe can live on the street
We'll beg for their love
And if they leave us hungry
We'll still look at them soft
'Cause you and I we're both searching for a life
Where people don't know what we're about
Call on me when your luck runs outAnd if we don't make it through the night
It don't mean we weren't doing things rightHere's my hand for anybody to share
I'm the destitute beggar
And everyone believes what they hear
But I ain't a good reason
Why this whole place is covered in mud
Oh, call on me when the help don't come
