

Improv

Aaron Lewis

[Opens with improvised worship](You have whispered these things to me)You have caused flowers to grow in
my fields

And you have brought bright colours to my head

And you have caused a cool wind to blow underneath my window sill

And I rest here underneath your hand

[repeat]You made all my deserts into gardens (x2)

You made all my ashes into beauty (x2)I don't know where I'd be if I had not met you

I was a broken man when you found me (x2)I became alive (x7)What a joy it is to live again (x4)
