

Dirty Bastards Killed the Bird

PATRASCANO

Do i have faith... when they teach me to change my life?
Do i have faith... when they want me to change your life?
Do i have faith... when they ask me to break the rules,
Again and Again?
Do i have faith... to pretend that i am free,
To pretend that i have become full of grace. Will i have faith... to accept infinity in place?
Will i have faith... to see the stars inside my mind?
Will i have faith... to touch the clean and see my face?
Will i have faith... even if they killed the bird? Chorus: Dirty Bastards Killed the Bird
Dirty bastards, Dirty bastards...
...Going with the stream, turning off my head,
Playing in the garden with the devil himself.
Gambling with the life, dancing on the high,
I don't care if the bastards killed the bird... It's always playing time...
"be free"
