Cry

Kym Marsh

I would like to say that I
Never meant to make you cry
I think about you every day
No matter what your friends might say
Everybody knows my name
Even though I'm still the same
I just would like to say that I
I never ever meant to make you cry
I would like to know
Why there are clouds in the sky
Every time I fall in love
And I would like to know
Why I'm sitting here on my own
I would like to know
Why when I find a nice guy
Someone I can lean upon
I mess it all up and then
I wonder why I'm all alone
Tell me if you think that I
I'm talking way too much
Tell me if you'd like to stay in touch
I would like to say that I
Never meant to make you cry
I think about you every day
No matter what your friends might say
Everybody knows my name
Even though I'm still the same
I just would like to say that I
I never ever meant to make you cry
Sitting on the sofa
Letting life go by
Thinking about the early days
Thinkin' 'bout the times when I
Hurt you with my crazy ways

All I want to do is
Look around for you yeah
Drivin' till the break of dawn
And

Pleading till your coming home
Tell me if you think that I
I've been I bit to much
Tell me if you'd like to stay in touch
I would like to say that I
Never meant to make you cry
I think about you every day
No matter what your friends might say
Everybody knows my name
Even though I'm still the same
I just would like to say that I
I never ever meant to make you cry
(Cry) cry (cry) cry
I didn't mean to be so cruel
(I didn't mean to be so cruel)
I didn't mean to let you down
(I didn't mean to let you down)
So sorry for the rain
On your terrain
On all the pain
You must have gained because of me
I would like to say that I (I would like to say)
Never meant to make you cry
I think about you every day (oh every day)
No matter what your friends might say
Everybody knows my name
Even though I'm still the same (still the same)
I just would like to say that I
I never ever meant to make
I never ever meant to make you cry
