

Do You Love Me Like You Used to

Best Coast

I wake up to the morning sun,
When did my life stop being so fun?
Wish I could care about someone, the way I used to.
When will this be done? I'm always crying on the phone,
Because I know that I'll end up alone.
Lord please forgive me for my sins
I didn't mean it, I just want it to end Do you love me like you used to?
Do you, do you, do you? I have no reason to complain,
My feelings change, they melt away in my brain.
I keep myself awake at night,
Sleep with the lights on, always ready to fire I'm always crying on the phone,
Because I know that I'll end up alone.
Lord please forgive me for my sins
I didn't mean it, I just want it to end I'm always running down the street
I don't remember what it means to be me
I left all of that sh*t behind
But still I seem to lose my mind,
My mind, my mind, my mind, my mind
