

I Will Be

Chantal Kreviazuk

We can't go back, it got too dark
We saved ourselves and now we reap hard
A child needs words said to their ears
To comfort them in a time of fear
No one deserves it
And no one can reverse it
I will be your light when yours, when yours ain't working
And I will be your heart when yours, when yours is hurting
So don't give up on me now
Don't give up on me now
Don't give up on me now
I will be your world when yours, when yours stops turning
I hope you know in spite of life
Forgiveness is your divine right
So tell yourself you came from good
I'll take your place if I only could
No one deserves it
But no one can reverse it
So I will be your light when yours, when yours ain't working
And I will be your heart when yours, when yours is hurting
Don't give up on me now
Don't give up on me now
Don't give up on me now
I will be your world when yours, when yours stops turning
Bridge:
They tell me to walk away
I say 'over my dead body'
They tell me you could never change
But I'll be your only
I will be your light when yours, when yours stops working
I will be your heart when yours, when yours is hurting
So don't give up on me now
Don't give up on me now
Don't give up on me now
'Cause I will be your world when yours, when yours stops turning
Don't give up on me now
Don't give up on me now
Don't give up on me now
