

Keep the Light On

Billy Ray Cyrus

Everybody's on his own track
there ain't one road
there ain't one map
come on, keep the light on. been gone so long my jeans are faded
i seen this world, its so over-rated
come on, keep the light on cause im comin home tonight
yea, im comin home tonight Put on that dress,
red one i gave ya
lets spend our night
get reacquainted
come on keep the light on we'll call the boys
tell em all i'm coming
this soldiers rocking
get that jukebox humming
come on, keep the light on cause im coming home tonight
yea im comin home tonight [CHORUS]
now is the time, lets take a chance
let's take the world by the seat of this van
let's make some noise
lets make it last
just give me a sign, baby
keep the light on keep the light on lets shake the stands and wake the nation
ill ram it in third
and im coming home
come on, keep the light on we'll call my folks
and call the papers,
im on my way this time im staying
come on, keep the light on cause im coming home tonight
yea, im coming home tonight [CHORUS]
now is the time, lets take a chance
let's take the world by the seat of this van
let's make some noise
lets make it last
just give me a sign, baby
keep the light on keep the light on
