

# You'll Find A Way

## dead prez

Go Ahead, you know you want it  
You'll have no other way  
You just want to take us down  
Go ahead,  
I'll be the one hit  
If I can take you, boy, it just might throw this town  
Oh, you want to get it  
You make us bleed, it'll prove there's life somewhere  
And oh, no, I want to yell it  
But do we speak or are we just nodding our heads  
No way, not me, what you got,  
It's not for me, but you'll find a way  
No way not me, what you got,  
It's not for me

[Chorus]

Don't reach too far  
You will fall over  
Don't be surprised what you discover  
Don't fear your call  
Can't pull us under  
You better watch out, run for cover

We see right through it  
You get what you give, you get what you give

Go ahead  
I'll be your junkie  
I'll be deplete you can heap all rubbish here  
Go ahead, now dump it on me  
If I go quiet will the itch go down with me  
Oh, you got to get it  
Never mind that it was never there nowhere  
But oh, no, not for a minute  
For now you'll make your bed  
And it will wait, I swear

No way, not me, what you got,  
It's not for me, but you'll find a way  
No way not me, what you got,

It's not for me

[Chorus]

We see right through it  
You get what you give, you get what you give

Tell them that they'll get what they wanted, tell them  
Tell them that they'll get what they wanted.  
'Til then...
