We Don't Come from Anywhere

RADIORADIO

Tell everyone tonight were gonna bury it
Come out, come on, join in the hysteria
They crank out the fear, package it to stereo
If they erase who we are, who will know?We dont come from anywhere
We are nothing, no one, no
We dont come from anywhere
Disappear into thin air
We dont come from anywhere
We are nothing, no one, no
We dont come from anywhere
NowhereA new rhetoric everyones kicking on
Like it was the height of sophistication
Me follow you, isnt that funny?
Still living off mom and dads moneyWe dont come from anywhere
We are nothing, no one, no
We dont come from anywhere
Disappear into thin air
We dont come from anywhere
We are nothing, no one, no
We dont come from anywhere
Nowhere
