

Get Smart

Squeeze

Get lucky, get jumping but get smart
Get walking, get loving but get smart
Get ready, get cooking, get everybody looking
But get smartGet evil, get nasty but get smart
Get violent, get bitching but get smart
Get ready, get going, it's talking time for showing
But get smartYou look at me like what to say
You asking me or what are you playing?
I said to you whatever I feel the way
I feel in my heart, so get up and get smartGet jivey, get superb but get smart
Get posing, get playing but get smart
Get ready, get calling, get everybody going
But get smartGet buried, get diddely but get smart
Get hammered, get plastered but get smart
Get ready, get dressed, get sucking all the rest
But get smartYou look at me like what to say
You asking me or what are you playing?
I said to you whatever I feel the way
I feel in my heart, so get up and get smartGet up and get smart
Get up and get smart
Get up and get smart
Get up and get smart
Get up and get smart
