Everybody's Stoned

Wet Willie

Everybody seems like they're so stoned today
Seems we just don't realize where we're going
And it's sad for me to sayEverybody's stoned but the feelin' is gone
I've been thinking 'bout a lot of things in this songGuess it's just the way I feel inside that makes me sing
Sing these words I sing to you
Show my feeling and I hope it isn't trueEverybody's stoned but the feelin' is gone
I've been thinking 'bout a lot of things in this song, woa, ohAll the pictures driftin', driftin' through the years
I don't know just where it's headed
But it's taken everybody here
