

# The Climb

## No Doubt

Step by step, I've come closer to reaching the top  
Every step must be placed so that I don't fall off  
Looking down to see 'bout how much higher I am  
Another cool wind comes through, brushes my skin  
Oh, the harder I push, the tension does grow  
I gather my thoughts the further and further I go  
With some luck I just might keep on climbing  
So better to climb than to face a fall  
So high the climb, I can't turn back now  
Must keep climbing on to the clouds  
So high the climb, I can't turn back now  
Must keep climbing on to the clouds  
Oh, pulling myself up by rope, I better my view  
Oh, the only thing in sight is what I must do  
As I turned, I could see myself falling, falling, falling  
Which in return gave me strength for the climb  
So high the climb, I can't turn back now  
Must keep climbing on to the clouds  
So high the climb, I can't turn back now  
Must keep climbing on, on to the clouds  
Although many failed, I must now prevail with no questions  
Have no time to stop, onward to the top of the mountain  
And I, I can't turn back now, it's so very high, I can't turn back now  
If I keep it up, I'm gonna make it, I'm so very close, can't you see?  
So high the climb, I can't turn back now  
Must keep climbing on to the clouds  
So high the climb, I can't turn back now  
Must keep on climbing up, and on to the clouds  
So high the climb, I can't turn back now  
Must keep climbing up, and on to the clouds  
Getting closer, getting closer  
Coming closer, getting closer  
Looking back to, looking back to you  
Looking back to, looking back to you  
Looking back to, looking back to you  
Looking back to  
To the top, to the top, to the top, to the top  
To the top, to the top, to the top, to the top, to the top  
Climb up to the top, to the top, to the top, to the top

To the top, to the top, to the top  
Looking back to you  
Looking back to  
Looking back to you
