

When I Say Forever

Chris LeDoux

Talk is so cheap anybody can say
They're gonna give you endless love
Then turn their back and just walk away
When the going gets a little rough
But when I took your hand
And when I took those vows
I knew forever I'd be true[Chorus]
And when I say forever I mean forever
It'll go on 'til the end of time
The world may stop turning
The sun may stop burning
But I know that my love will still survive
And when I say forever, I mean forever Now God only knows what tomorrow may bring
Maybe sunshine maybe rain
And I don't know much, but I know one thing
This heart of mine will stay the same
And honey I got my faults, but I'm a man of my word
I mean exactly what I say[Chorus] When I took your hand
And I took those vows
I knew forever I'd be true[Chorus] It'll go on 'til the end of time
The world may stop turning
The sun may stop burning
But I know that my love will still survive
It'll go on forever
