Cold Crush

Estelle

I want you back, I want you back
I know you recognize me, I recognize you too
I heard your reputation hopes are up it?s true
And yes it?s [?] crowded, but they are disappear
Cause when I look at you, it?s like no one?s here
I want [?] the agreement, of things that we could do
I?d rather take a chance and spend a life with you
Cold crush, I?m trying to keep my cool, I want you so much
Your way we gonna do, I walk away this way, say you?ll make my day
Oh won?t you come and kiss me till there?s nothing left to say
Crush
You walk across the room, I see you look at me
I sneak a look at you, is that a sign?
Though this ain?t the way this ain?t the rules
I?m not gonna let you slip away, I gotta make a move
I?ll send a drink all over, come meet me by the pool
I want you feeling bout a secret rendez-vous

Just find a couple hours, let?s sneak and follow?
I promise not to tell what we?re around to do
Cold crush, I?m trying to keep my cool, I want you so much
Your way we gonna do, I walk away this way, say you?ll make my day
Oh won?t you come and kiss me till there?s nothing left to say
Crush
Is it wrong that I?m so glad you came?
Was I supposed to step to you this way
I?m so cold, not trying to loose my cool
But I get open when I?m next to you
There?s my dress, there?s your shoes
All our clothes have fall across this room
I don?t care what happens you can lead the way
Baby stay, make me say
Cold crush, I?m trying to keep my cool, I want you so much
Your way we gonna do, I walk away this way, say you?ll make my day
Oh won?t you come and kiss me till there?s nothing left to say
Crush [X2]
