

Star of Wonder

Sufjan Stevens

I call you from the comet's cradle
I found you trembling by yourself
When the night falls, lightly on your right wing shoulder
Wonderful know it all, slightly where the night gets colder
Oh, conscience, where will you carry me?
I found you, star of terrifying effigies
When the night falls, I carry myself to the fortress
Of your glorious cause, oh how I may seek your fortress
When the night falls, we see the star of wonder
Wonderful night falls, we see you, we see you there
I see the stars coming down there, coming down there to the
yard
I see the stars coming down there, coming down there to my heart
I see the stars coming down there, coming
down there to the yard
I see the stars coming down there, coming down there to my heart
I see the stars coming down there, coming down there to my heart
