

# Tara

## Ramparts

I know where to go tomorrow  
Where tears will not find me  
Now I'll give you this song  
And autumn rays come down  
Ring out the bells in Tara  
My destiny in your hands I'm waiting at the crossroads, waiting for you  
With the blossoms around us, promising true  
Dreaming on the high wind, dream it for you  
And return to our lost ocean blue I want to believe forever  
Sleep softly beside me  
And I'll give you this heart  
When morning dew falls down  
Stood by the hill of Tara  
Feel the love in the land I'm waiting at the crossroads, waiting for you  
With the blossoms around us, promising true  
Dreaming on the high wind, dream it for you  
And return to our lost ocean blue [Foreign content] I'm waiting at the crossroads, waiting for you  
With the blossoms around us, promising true  
Dreaming on the high wind, dream it for you  
And return to our lost ocean blue
