Little Boy Blue

Joe Walsh

Time comes down
You got to take it on yourself
You got to give up your past
You got to give up what came last
World goes round
You got to leave it all behind
You got defeated at lastLittle boy blue
With the feelin' in your soul and the gypsy in your eyes
Little boy blue
You got to leave this song behind as it passes byYeah, yeah
Life goes on
You got to catch it if you can
You must believe it will last
You can't remember what went past
Tide comes in
This fog will surely roll away
It can't leave, it will stayLittle boy blue
Tootin' on your coke and takin' a toke
In a lazy haze
Little boy blue
Got to leave this song behind as it passes byTide comes in
This boat will surely row away
It can't leave if we stayLittle boy blue
Tootin' on your coke and takin' a toke
In a lazy haze
Little boy blue
Got to leave this song behind as it passes by
