Beloved Killer

Sanctity

Pain and satisfaction, you're dying day by day
Savoring every moment of torture and ecstasyMost beloved killer
Such a beautiful viceLove and hate in one, the fix is so divine
Feasting on your essence while clouding your mind
No need to turn from the gun in you mouth
The taste is so delicious, death with a doubtMost beloved killer
Such a beautiful vice
Enticed by comforting fear
Such a beautiful vicePain and satisfaction, you're dying day by day
Savoring every moment of torture and ecstasyCan't stop destroying
Everything you've loved
While craving the endMost beloved killer
Such a beautiful vice
Enticed by comforting fear
Such a beautiful vice
