Shadow Blues

Laura Veirs

There's a shadow beneath the sea
There's a shadow between you and me
I've learned that love is scared of light
Thousand seeds from a flower, blowing through the nightYour blackened kiss on my cheek
Your blackened kiss runs river deep
A stranded fish dear, I'm on the sand
Blue water from a pool, up to the clouds, I'll landThough I am dark bout the whys of wanting
Though I am dark, I'm still a child
Gonna dig a coal mine, climb down deep inside
Where my shadow's got one place to go, one place to hideGonna dig a coal mine, climb down deep inside
Where my shadow's got one place to go, one place to hide
