

# Shadow Blues

[Laura Veirs](#)

There's a shadow beneath the sea  
There's a shadow between you and me  
I've learned that love is scared of light  
Thousand seeds from a flower, blowing through the night  
Your blackened kiss on my cheek  
Your blackened kiss runs river deep  
A stranded fish dear, I'm on the sand  
Blue water from a pool, up to the clouds, I'll land  
Though I am dark bout the whys of wanting  
Though I am dark, I'm still a child  
Gonna dig a coal mine, climb down deep inside  
Where my shadow's got one place to go, one place to hide  
Gonna dig a coal mine, climb down deep inside  
Where my shadow's got one place to go, one place to hide
