

# Area 52

## Yeah Yeah Yeahs

[Verse 1]

Message came from outer space  
Future of the human race  
Help is not gonna hide it's face  
Let it go, she'd your skin  
Children will never sleep again  
Explain

[Chorus]

I wanna be your passenger  
Take me as your prisoner  
I want to be an alien  
Take me please, oh alien  
I wanna be an alien  
Take me

[Verse 2]

Your instruments can't stop our ships  
Soon you'll be up in it  
Rest will all be blown to bits  
Let it go, have your day  
Space will take your kids away

[Chorus]

[Verse 3]

You must taste our violent fuzz  
Your wars are of no use to us  
You cannot fix what never was  
Let it go, have your day  
The media is on it's way

[Chorus]
