Truth

[Mike Williams](#)

I gotta be me and you need to be you
Just set your mind free and keep yourself true
Now don't fret baby - it's like a night out on the town
And don't be feelin' blue (no, no...)
Shine your light all around
Like I know you can do baby (yeah, I know you can do)Now some people call me crazy for what I know
But their mind's a bit hazy cuz' they're vibrating too low
It's time to wake up baby and get on track
C'mon lets give it a try and take the truth back
And walk away from the lies (yeah)
Let me show you how to walk away... follow my guitar...I gotta be me and you need to be you
Just set your mind free and keep yourself true
Now don't fret baby - it's like a night out on the town
And don't be feelin' blue (no, no...)
Shine your light all around
Like I know you can do baby (yeah, I know you can do)
