

Regardless

Royce Da 5'9"

Yeah, yeah, M.I.C., yeah, yeah
My arms are heavy, knees weak, palms are sweaty
Niggaz wanna see me gone already
From this song on to song, you 'bout to be swept away
Yesterday is long gone
I took some time to redefine my style
I kept my cool, summers behind the clouds
You lames can't put me in the same category as a rookie
Nope, my name ain't new
Rappers can't push me as high as I can
Push myself, you not inspirin'
The stolen spot is open, I chose to not listen
And I don't even know what's hot or we dissin'
Or who's consistent, who's nice or not
Who's on top, or who's wife is sniffin'
Or who's meltin', soon to be failin'
All I know is the way the streets felt 'bout boom
Regardless, nigga pump yo brakes
Ya car is movin' fast, we will lump your face
Regardless, me and Cash'll come
And take yo ass away far, nigga don't play
Regardless, the M.I.C.
We kickin' ass and takin' names you can't ID
Regardless, me and Dre is comin'
Out to play wit' you today, it's curfew
D-Elite, we comin' wit the lightin' and thunder
Under the rain, to pump it you need a jeep
You need at least some speakers while ya glued to ya seat
And cruisin', while I creep through ya system
I'm gon' be heard as God is my word
Deliverin' the kind of murder Koch don't deserve
The real will cop it, every label in the world
Look out for me, I will kill yo roster
I will shut this shit down
And on top of that I could fuck your bitch now
It's hard to believe that Columbia couldn't market me
To do numbers like D-12 at least
I played myself for radio play
I never dance but the skill itself is a second chance
I'm back wit two's by me, start the beef
I'm 'bout to part these streets like Bruce Almighty
Regardless, nigga pump yo brakes
Ya car is movin' fast, we will lump your face
Regardless, me and Cash'll come
And take yo ass away far, nigga don't play
Regardless, the M.I.C.
We kickin' ass and takin' names you can't ID
Regardless, me and Dre is comin'
Out to play wit' you today, it's curfew
