

She's a Blast

The Beautiful Bodies

Walk the line but
She's gonna give you up
She's like a loaded gun and
You're not the only one but
I know that you
You've got it going on
I know she won't give in
I know that I will, I will
Tonight we dance love
Come take a chance cause
I'm not not not gonna give it up
I'm not not not gonna give it up
Tonight we dance love
Steal this romance cause
I'm not not not gonna give it up
I'm not not not gonna give it up
Take a breath cause
She's gonna pull you down
Her mystery is lonely
I've got the time so hold me
You know that I
I've got it going on
Step in a little closer
Her game is over over
Tonight we dance love
Come take a chance love
I'm not not not gonna give it up
Tonight we dance love
Steal this romance cause
I'm not not not gonna give it up
I'm not not not gonna give it up
Tonight we dance
Tonight we dance
Just close your eyes cause you and I won't get a second chance
Tonight we dance
Tonight we dance
Just close your eyes cause you and I won't get a second chance
Tonight we dance
Tonight we dance

Just hold on tight cause you and I won't get a second chance
Tonight we dance love
Come take a chance cause
I'm not not not gonna give it up
I'm not not not gonna give it up
Tonight we dance love
Steal this romance cause
I'm not not not gonna give it up
I'm not not not gonna give it up
I'm not not not gonna give it up
I'm not not not gonna give it up
Tonight we dance cause
I'm not not not not never never givin' up on you
