

All Along

Pennywise

All along, we had the remedy
To live these words and stay true
You were wrong in your insanity
There's nothing left for you
Confusion led to this hypocrisy
But the truth shall carry on
Delusion fed by your conspiracies
We waited for so long
And now it seems, yeah
That we are free, yeah
From all the problems caused within
We're gonna live our lives again
With minds wide open
The jury's spoken
And in the darkness of the night
You keep on hoping, hoping for a sign
We'll get it right this time
We all, hey
But you're running out, your're running out of...
Time's hands are slowly creeping in on you
The final curtain call
The last laughs are surely beeing heard by now
You're headed for a fall
Confusion led to this hypocrisy
But the truth shall carry on
Delusion fed by you conspiracies
We waited for so long
And now it seems, yeah
That we are free, yeah
From all the problems caused within
We're gonna live our lives again
With minds wide open
The jury's spoken
And in the darkness of the night
You keep on hoping, hoping for a sign
And now it seems, yeah
That we are free, yeah
From all the problems caused within
We're gonna live our lives again
With minds wide open
The jury's spoken
And in the darkness of the night
You keep on hoping, hoping for a sign
We'll get it right this time
We all, hey
But you're running out, your're running out of time
