

Lovin

The Dirty Guv'nahs

Your sweetness really turns me on
Making me the weakest man I've ever known
Well, I knew it when I saw you but it felt like years
A girl like you is hard to find
The kind that makes it easy to be sincere
Helps me fall asleep at night
Oh, but now I just can't keep you off of my side I'll make a living out of lovin you
Theres nothing else that I would rather do
I'll make a living out of lovin you So, we got a new apartment, well it was new to us
Spending way more money than there ever was
Dreaming bout the future from the kitchen floor
Walkin through a world that can't afford But if we're broke and we can't afford
A big house in a fancy little neighborhood
Tell me would you cut and run?
Cause if you're lonely and think you're the only
Girl that gets scared then know that you're wrong
And if you wonder if I'll be there
When the suns going down on the edge of our dreams
Well I'm gonna love you
And I will be there
I'll never hurt you
Leave or desert you
Cause I am your man
And I made a promise
That I'm gonna keep But if what you're looking for is sitting in your neighbor's yard
And you're controlled by the thoughts of your friends
Well, I can't give you that
I can't give you that
I can't give you that
No, no more
Cause if what you're looking for is sitting in your neighbor's yard
Well you should know by now
I can't give you that
I won't give you that
I can't give you that
I won't give you that I'll give you my love
I'll give you my love
