Black Abyss

Black Tide

There is nothing left for me to see
The thought of end is killing me
I guess it's time for my demise
There's no more time, I'm left asideThere's no more pain, there's no more tears
There's no more feeling, no more fear
The darkness creeps upon my skin
These wounds won't heal, this is my sinThis is the black abyss
My life's apocalypse
Eternal suffering
No future for me to seeThis is the black abyss
Executor of my soul
This darkness fills my eyes
And I'm now left behindAs my life rots away
I long the day for my decay
I'll soon be there in death's grasp
And won't let go, now I'm deadThis paranoia, I can't last
These days are now my last
The sense of evil is closing in
It is a phobia that kills withinThis is the black abyss
My life's apocalypse
Eternal suffering
No future for me to seeThis is the black abyss
Executor of my soul
This darkness fills my eyes
And I'm now left behindThis is the black abyss
My life's apocalypse
Eternal suffering
No future for me to seeThis is the black abyss
Executor of my soul
This darkness fills my eyes
And I'm now left behind
