

Wrap Me In Your Love

[Joe Diffie](#)

Turn out the lights
We just need the lights from the tree
The kids are in bed, baby it's just you and me
Side by side, the fire is bright, on this oh so blessed night
The gifts lying there
Cannot compare with the love you give
Sealed with a kiss for as long as I live
Ribbons and bows, could never show
All that I want you to know
I want to take you in my arms tonight
And keep the fire burning bright
'Cause if the best things in life are free
There's nothing you could buy for me
Your presence is enough, just wrap me in your love
Look into the night
There's a star in the sky that I see
It's come so far to shine it's light for you and me
As if it knows, I'm holding you close, underneath the mistletoe
