In Our Bones

Amarionette

Gotta hide turn to gathering
You can see every stitch in it now
Not as popular as wearing it out
On your sleave, yeah I highly doubt
When you leave in the corner
Every vision that you might have seen
Every miracle that you can believe
Now your prayers, wedding vows you read

They say, its in our bones and
We know just how to get back
We can be whole
And I know its not an option
we can make it out.

Never stuck in a wishing well
You provide for me,I can tell.
That comes through confession
Take away that depression.
Yeah if I fall down
You know how to pick me up.
I am stretching for you.
I'm stretching for you.

They say, its in our bones and
We know just how to get back
We can be whole
And I know its not an option
we can make it out.

And I'm hollow, so fill the space that others borrowed.
You know me, I don't want you to take a backseat.
So fear me on my heart.
Fear me.

They say, its in our bones and
We know just how to get back
We can be whole
And I know its not an option
we can make it out.
