## The Adicts

Over the hill, into the sun  
There's a man shouting about things to come  
We need a change, don't be afraid  
Don't be afraid to follow fashion4321, here we all comeNow make a move, now make a stance  
Join the crusade, hear the romance  
Another voice says, says, "Come with me  
Come with me and I'll make you happy"
