

# Arena

## Chetes

You can take it  
If you want it  
You can break it  
If you need it I'll never fight another day  
But you can take the flesh not the soul away  
They're calling from the lions den  
They're fighting for the ghosts of holy men Into the arena we climb  
We look to the sky  
Into the arena we climb  
You and I Is it over  
When the light goes?  
Bella nova  
Tell me who knows Scars will beat the minds of men  
Can you feel the thorns upon the skin?  
I'll never fight another day till I die {chorus}  
Yes I hear you  
Yes I see you  
Yes I feel you  
And I need you Is it over, I'll never fight another day  
When the light goes?  
But you can take the flesh, not the soul away  
Bella nova, they're calling from the lions den  
Tell me who knows?  
They're fighting for the souls of holy men {chorus}
