Play the Game

Shout Out Louds

My friends
They don't talk to me anymore
No, they don't call me anymore
Since I left the shoreSo I drink again
And I play the game
Like I did yesterday
Are you the same?
Are you the same?My friends
I'll never see them again
Until I know what happened back then
Until someone takes the blameSo I drink again
And I play the game
Like I did yesterday
Are you the same?
Are you the same?Are you? Are you?
Are you? Are you?
Are you? Are you?
Are you? Are you?And who's at the door?
Would you open it for?
And who's at the door?
And would you open it for?And who's at the door?
Would you open it for?
And who's at the door?
And would you open it for?
