Nobody Said

Cleopatra

Please girl, don't drop the phone
Stay calm but don't let it fly
It was bound to happen someday
But still nobody understands whyDon't believe you are in the wrong
You only played your part
These things do occur in life
We can't know from the startNobody said it was gonna be easy
Nobody said it would be alright
Nobody said you would gonna make itWe can't all be wrong, can't all be right
Move on, what's past is past
What's done is done, move onBoy, you mustn't feel confused
Don't be afraid to cry
Let go of what's hurting you
Release the pain and lead your lifeYou can hide away or you can leave
But from that what would you get?
The future won't remember
The past will not forgetNobody said it was gonna be easy
Nobody said it would be alright
Nobody said you would gonna make itWe can't all be wrong, we can't all be right
Move on, what's past is past
What's done is done, move onNobody said but then nobody can deny
We've got the strength inside us
We can work this out if we combineNobody said but then nobody can deny
We've got the strength inside us
We can work this out if we combineNobody said but then nobody can deny
We've got the strength inside us
We can work this out if we combineNobody said but then nobody can deny
We've got the strength inside us
We can work this out if we combineNobody said but then nobody can deny
We've got the strength inside us
We can work this out if we combineNobody said but then nobody can deny
We've got the strength inside us
We can work this out if we combine
