

Take It Easy Rider

David Allan Coe

Take it easy rider you can make it easy rider
There's no one to stop you, doesn't it look easy rider now?
Take it easy rider you can make it easy rider
There's no one to stop you, doesn't it look easy rider now? Well, I saw my first rodeo in Amarillo, Texas
Busting broncos is more than just a way to make a living
Horses were like women, they were fast and fancy free I saw Shirley Stoker up in pan head West Virginia
Her and Connie Shovelhead was standing in the rain
Both of them were dressers, Lord they sure were looking pretty
Motorcycle fever has almost drove me insane Eighteen were rollin when I climbed up in that Ken Worth
Me oh my, that semi was the apple of my eye
Horses, trucks and motorcycles sure makes life worth living
Hope I never see the day, I kiss them all good bye
