

# Deciphering Me

Brooke Fraser

Friend, it's getting late  
We should be going  
We've been sat here beneath  
These flickering neons for hours  
While I am cracking their code  
You are deciphering me  
For I am a mystery  
I am a locked room in a tall tower  
Oh, can you feel the gravity falling?  
Calling us home  
Oh, did you see the stars colliding?  
Shining just to show, we belong, we belong  
Your telescope eyes see everything clearly  
My vision is blurred  
But I know what I heard  
Echoing all around  
While I am tuning you in  
You are deciphering me  
Not such a mystery  
Not such a faint and far away sound  
Oh, can you feel the gravity falling?  
Calling us home  
Oh, did you see the stars colliding?  
Shining just to show, we belong, we belong  
It's love, it's love that holds us  
We will be alright  
It's truth, it's truth that shows us  
If we'll walk in its light  
It's love, it's love that holds us  
We will be alright  
It's truth, it's truth that shows us  
If we'll walk in its light  
Oh, can you feel the gravity falling?  
Calling us home  
Oh, did you see the stars colliding?  
Shining just to show, we belong  
Oh, can you feel the gravity falling?  
Calling us home  
Oh, did you see the stars colliding?

Shining just to show, we belong  
Oh, can you feel the gravity falling?  
Calling us home, we belong  
Oh, did you see the stars colliding?  
Shining just to show, we belong
