Absolutely Free, Absolutely Beautiful

Magic

Sunny shiny day I guess that I'll be on my way
The gypsy has to leave you one more time
I know that you will offend and look just fine
About a smile, about a laugh
All my trees can let go off your leaves
And the winter wind is blown in us apartThe gypsy knows that he will take your heart
That she brings to me
Absolutely free and absolutely beautifulAll my way I must find a place to stay
Baby girl now that don't mean a thing
That you get all above that I can bring in my life, in your life.
Yeah...yeahDown on my knees ask
And beg world help me please
I want to save it all and every days
I want to understand her every kiss
