

# Together

## The Soviettes

Everyone's had a day like yours,  
But you should know that you're not alone,  
'Cause we'll be there with you always,  
Call us up. Let's go! I know when I go low,  
I know where I can go,  
Find those who help me,  
And I find out why so,  
I know it's hard to know  
Exactly where to go  
I find my way so no one else  
Can feel left out (?) [Chorus]  
And when you feel let down  
No one wants to be around  
It's alright, we'll stay by your side.  
And we'll get through it together Some days are dark, I know.  
That's why I think it's important to  
Surround ourselves with friends who stay close  
Feel stronger are along  
Go on you always know that  
If you need help I'll be there tomorrow. [Chorus]  
I know you're feelin' down  
No one wants to be around,  
It's alright, we'll stay by your side.  
And we'll get through it together. [Chorus x3]  
[in the background:]  
(I know you'll always be around,  
To pick me up when I fall down,  
Keep my feet safe on the ground [x3])
