

Party Life

Musiq Soulchild

Ah, you like to hit all the spots
Get it on and poppin', and drop it like it's hot
In the club with your girls and they all hot
I heard somebody tried to call you a thot
But you not
Whether love or sex
I stick around, get around, on to the next
Still a woman, a one of one, nothing like the rest
She the type still deserve all due respect And yeah, your clothes might be a little tight
Your makeup and hair be like 'oh, oh-oh-oh'
And yeah, I guess sometimes you gotta go out
And show them how can't none of these chicks keep up with you, girl
'Cause really you're a Netflix and chill at home girl
Usually, but not tonight, you 'bout that party life
Work hard, play hard, it's a part of life
So, yeah, I guess tonight finna be one of those nights So bring on the shots
Shawty, shake you what you got while the DJ rockin', don't stop
Look how you make 'em all flat
Now they wanna take it to the parking lot
Then they wanna bring it to the crib
Make it do what it do, shawty, you know what it is, yeah
Let them want what they want want
Long as you know you're the one in control And yeah, your clothes might be a little tight
Your makeup and hair be like 'oh, oh, oh-oh-oh'
But you need someone who can understand you
And don't feel too bad when they can't keep up with you, girl
Even though you're really a Netflix and chill at home girl
Usually, but not tonight, you 'bout that party life, yeah
Work hard, play hard, it's a part of life
So, yeah, I guess tonight finna be one of those nights Listen, you grown, girl, yeah
So who gon' tell you what to do?
Look, you make your own, girl
So you do what you wanna do
And you got a dress that (Some might think)
Look a little too sexy but (Work it on)
You know somebody gon' buy (You a drink)
And if he lucky, y'all just might go (Get it on)
But girl, yeah, I know (Ain't necessarily looking for someone)
No, you just wanna go

(Somewhere where you can get down, be yourself and just have fun)
Yeah, 'cause only you know
(About your grind and how hard you've been working)
So ain't nothin' wrong with a little turnin' up (Sometimes, girl)
You gotta get loud, get wild, every once in a while, girl 'Cause you're a Netflix and chill at home girl
Usually, but not tonight, you 'bout that party life
Work hard, play hard, it's a part of life
'Cause who feel like staying home every night? Girl, Netflix and chill at home girl
Not tonight, you 'bout that party life
Work hard, play hard, it's a part of life
So, yeah, I guess tonight finna be one of those...
